THERE can be little doubt but that excessive smoking shortened the lives as well as the career of usefulness of such men as Gens. Grant and Sherman, Edwin Booth, and others. THE final scene in a bloody Butler county tragedy was concluded in court, at Bloomfield, last week on a change of venue. MR. J. P. BLAIZE, an extensive real estate dealer in Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the northern part of that state during a recent blizzard, says the *Saturday Review*. Mr. Blaize had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blaize sent to the nearest drug store and got a bottle of Chamberlain's Cough Remedy, of which he had often heard, and took a number of large doses. He says the effect was wonderful and in a short time he was breathing quite easily. He kept on taking the medicine and the next day he was able to come to Des Moines. Mr. Blaize regards his cure as simply wonderful. For sale by all Druggists.

JUST an even half dozen of the Democratic newspapers of this state have endorsed the position of the Kansas City Times. Hundreds have denounced the Times as an ingrate. The Times has had the six endorsements stereotyped and one or more of them appear on the editorial page every day in the week. It requires very little to make some people happy.—St. Joe. Gazette.

AN exchange, with more courage than policy in its make-up, truthfully declares: "It is simply disgusting to hear persons speak scornfully of girls who work for a living. No sensible man is dazzled by the glitter of a jeweled finger, a gold bracelet or a watch bought on 'tick,' perhaps. All these have not as much fascination as a pleasant disposition, a happy, intelligent face, a well-cooked meal every day in the week and a glistening, well-ironed shirt front. A dimpled chin and sunny face in the kitchen, is worth half a score of 'bailed' millinery singers in the parlor clawing ivory and screeching the words of 'A Flower from my Angel Mother's Grave,' when very likely the poor mother is hanging out the washing in the back yard."

THE national agricultural congress, of Great Britain, opened in London Thursday of last week. The president, the earl of Winchester and Nottingham, said that since last year the unfavorable condition of husbandry had increased alarmingly and was rapidly becoming a national disaster. THE new tariff bill is destined to meet with strong opposition in both houses of congress. Although a long ways from being a revenue tariff, it will certainly largely increase the importation of foreign merchandise, especially of cotton and woolen goods; all must be paid for in gold. Free trade under a gold standard is a doubtful experiment.

GAME is said to be increasing in Southeast Missouri, notwithstanding the fact the forest area is being constantly reduced in extent. Recently a large black bear was seen within ten miles of Cape Girardeau, while panthers are not at all uncommon.

AN attempt is being made at Washington City to remove J. P. Lindeay, superintendent of the railway mail service for the Southwest district, with headquarters at St. Louis. The charges against Lindeay are numerous and specific.

A BRILLIANT meteor was recently seen in southwest Missouri. In size it varied from a two bushel basket to a large haystack, according to the locality and the credulity of the observer.
